1. Telephoned George Murphy on the staff of the Joint Committee on Atomic Energy to inquire if there were some committee reports available on the hazards involved in the disposal of radioactive waste and possibly in other areas. He will send us some materials and I indicated I might place directly in touch with him.

2. Representative Basil L. Whitener (D., N. C.) telephoned in connection with his recent trip to Europe and advised he had not written a report as such and that his only papers were in the form of newsy notes to relatives and friends. Under the circumstances it was agreed that probably these would not be helpful to the Agency.

3. Mr. Lloyd advised that Mr. Smart's information on his visit with GAO representatives had been discussed at this morning's Deputies meeting. It was agreed at some point it would be desirable for Smart to discuss our internal audit with General Foster. Mr. Lloyd left this matter for Legislative Counsel to handle with Smart.
